

PRESS RELEASE

For Immediate Release:

Versatile Control Panel Adds Nice Finishing *Touch* to CombiScale Units

CHICAGO, Illinois (August 09, 2007) - CombiScale, a supplier of multi-head combination scales, has recently upgraded its control panel technology for its line of 8, 10, 14 multi-weigher units with **HD³ Color Touch Screens**. Based on Microsoft's Windows XP™ platform, this highly versatile and intuitive interface enables operators to, among other functions, upload and download data, monitor the scale's performance remotely via the internet or Ethernet, calibrate and operate the scale, store recipes, and run production statistics. Features include a large true-color touch screen, an infra-red Wifi port option, PC hardware, multi-language options, and a quick dislodge function for sticky products. Weight readings are $\pm 1/10^{\text{th}}$ of a gram.

For further information or general inquiries on CombiScale's line of multi-head quality combination scales, please contact **Anthony Del Viscio** at **847-806-0606** or anthony@combiscale.com.
